

WOLF CREEK EQUINE PRESENTS: BIVI VACCINE ASSURANCE PROGRAM

Confidence in the Vaccines, Trust in the Manufacturer

Routine annual vaccinations and wellness examinations lead to healthier horses and longer lives. As vaccine specialists with more than 1 billion doses manufactures for horses, cattle, swine, and companion animals, Boehringer Ingelheim Vetmedica, Inc. (BIVI) understands the role that vaccines play in the health of animals. Developing unique vaccines that support the veterinary industry, while protecting horses from serious disease, is a primary concern.

Cutting Edge

- ◆ Eight vaccine combinations to customize protocols for every horse
- ◆ Ultrafil™ Purification Technology to filter virtually all unwanted extraneous proteins leaving only relevant antigens
- ◆ Intrathecal challenge model and heterologous challenge isolate
- ◆ Safe for use in foals as young as 4 months of age after two doses
- ◆ At least 12 months West Nile virus duration of immunity

By incorporating the BIVI family of vaccines into your disease prevention program, you can be assured of comprehensive protection against these disease. In fact, we guarantee protection for one year!

Equine Influenza, Eastern/Western Encephalomyelitis, Tetanus, and West Nile Virus
